Subject: Testimony for January 30, 2018 Energy Cmte Meeting
Attachments: Smart Meter 12718.pdf

Dear Committee Clerk,

Attached are letters to DTE energy and the letter of my shut off September 9 2015. My power was restored September 14, 2015 after numerous calls to DTE energy as they drag their feet concerning this matter. During this period my mother was diagnosed with terminal cancer. DTE energy sent five lineman trucks consisting of 2 lineman in each truck. Plus two security vehicles. Overkill and intimidating.

Thank you for your help.

May 1, 2015

Dear Mr. McCormick,

I am responding to your letter dated April 24, 2015 concerning smart metering (AMI) . I still remain opposed to the installation of a Smart Meter and the Opt-Out Program on my residence because of privacy and health issues emitted from a Smart Meter. Pursuant to Michigan Public Service Commission 460.139(e) I am filing a complaint. I have complied with (MPSC) 460.136.

Their is currently legislation being proposed and until this legislation is decided you are not to enter my property to install a smart meter. I will continue to allow DTE meter readers access to my property to read the meter or if it is easier for DTE Energy I will send you a photograph of the current reading.

I would also like a direct address and phone number to your office.

Thank you for your patience concerning this matter.

Sincerely yours,

Jon Muresan

**cc Rep. Jim Townsend

Regarding: 2702 Linwood, Royal Oak

Dear Jon Muresan:

This is a follow-up to our letter informing you that the Michigan Public Service (MPSC) approved DTE Electric Company's proposed plan to offer residential customers an opt-out of our Advanced Metering Infrastructure (AMI) Program. Our letter provided you with the requirements for opting out and instructions to contact us if you would like to participate in the Opt-Out Program. Additionally, the letter clearly stated that if you do not contact us to enroll in the Opt-Out Program, we will proceed with the installation of the advanced meter.

During a recent visit to the above address, we found that a locking device was installed that prevented us access to our metering equipment. This condition is unsafe for your family and your neighbors. Pursuant to Michigan Public Service Commission (MPSC) Rule 460.136, a utility may shut off service temporarily for reasons of health or safety. For these reasons, your electric service will be disconnected without further notice if you do not remove the locking device and contact us immediately so that we can proceed with the installation of the advanced meter. If your service is interrupted, you will be required to pay a reconnect fee to have your service restored.

To prevent interruption of your electric service, please remove the locking device and call us at 1-800-441-6698 to arrange to have the new advanced meter installed.

If you would like to enroll in our Opt-Out Program, make us aware of that decision when you contact us so that a non-transmitting advanced meter can be installed.

Please note that providing access to our metering equipment is not optional—it is a requirement that customers must comply with, and we appreciate your cooperation.

Thank you for being a valued DTE Electric customer.

Sincerely,

Joseph A. McCormick
Manager, Advanced Metering Program

Instructions

1. Each Click-N-Ship® label is unique. Labels are to be used as printed and used only once. DO NOT PHOTO COPY OR ALTER LABEL.
2. Place your label so it does not wrap around the edge of the package.
3. Adhere your label to the package. A self-adhesive label is recommended. If tape or glue is used, DO NOT TAPE OVER BARCODE. Be sure all edges are secure.
4. To mail your package with PC Postage®, you may schedule a Package Pickup online, hand to your letter carrier, take to a Post Office™, or drop in a USPS collection box.
5. Mail your package on the "Ship Date" you selected when creating this label.
